In the Claims

Please amend claim 1 as follows:

1. (Twice Amended) A color picture tube apparatus comprising
- a color picture tube provided with an electron gun and a phosphor screen on which an electron beam emitted from said electron gun impacts, in a bulb including a front panel and a funnel, and
- a deflection yoke attached to a neck portion of said bulb and deflecting said electron beam,
- wherein said color picture tube is further provided with a preliminary deflection member that applies a preliminary vertical deflection force to said electron beam such that the preliminary vertical deflection force when an electron beam is deflected toward the peripheral portion in the
